How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bu- reaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.

A biography of the Shawnee leader describes his vision to unite North American tribes into one powerful Indian nation capable of forcing back the encroaching white settlers and his attempts to do so. Reprint.
