Scope and Sequence. A strong scope and sequence nurtures faith by including a broad span of Old and New Testament stories and builds upon what’s being learned by repeating and adding to the stories as children age their way through the curriculum. To get everyone on the same story at the same time, D6’s scope and sequence is focused on adults, not children.

As new research continues to show, the cultural gap between secularism and the convictional Church continues to widen. KidMin and youth leaders are asking, "Are we adequately discipling today's kids to lead the future of the church in a culture that's becoming increasingly hostile to the gospel?" For many, the answer is "no," and a new conversation around making Resilient disciples is emerging. Resilient is an honest calling to ask robust questions about the future; it is a timely conversation in the midst of changing cultural landscapes; and it's a love letter to KidMin leaders and disciple makers to walk this road of child discipleship together. Resilient Child Discipleship focuses on three key areas, essential for shaping long-term faith: Belonging - Highly relational ministry led by a loving and caring adult Believing - Deeply Scriptural ministry rooted in the truth of God's Word and the power of the gospel Becoming - Truly experiential ministry, designed to move kids from simulation to real-world application of faith-based living Resilient equips you with an innovative, biblical and proven child discipleship philosophy to build your ministry around - plus practical questions to equip you and your team! Inspires and facilitates the crucial conversation of our time that will shape the future of the church Loaded with content to help your pastor cast vision and elevate the importance of children's ministry Helps cut through the clutter of the many responsibilities of KidMin to get to the most essential and effective aspects of children's ministry that most influence long-term discipleship into adulthood Child discipleship is the leading factor when shaping the future of your church The culture is changing so rapidly and radically that the future is likely to look far different than the world we know today. The children's ministry community has new conversations to explore as we prepare today's kids to lead the fearless future of the church.

They are all part of the culture war-a war between two worldview. One view is based on a biblical understanding of history, the other on pure naturalism. Our educational institutions and the media are on the frontlines of evolutionizing our culture. From Biology 101 to World History, from The Learning Chanel to SpongeBob, subtle and not-so-subtle evolutionary messages bombard us. We witness the battles and skirmishes of this war in our schools, our courts and our homes. All around us are casualties of this warfare-Christians taken captive by an evolutionary philsofhy. The idea of the big bang and millions of years has duped many Christians and its effects include a deficient gospel and subjective morality. How are we to respond when we hear of the latest "argument" for evolution? How can we prepare our children to face the evolutionary indoctrination of our public schools and universities? What are we to make of "Christian" organizations who teach the big bang and millions of years? How can we build a truly biblical worldview? In this powerful book, you will find ammunition for the war: answers to some of the most common arguments for evolution, analyses of Christian compromise positions and a call for a return to true biblical authority. Now in paperback, this helpful volume by pastor and best-selling author John MacArthur guides readers in cultivating a biblical worldview on a wide range of issues. What we think shapes who we are. That's why the Bible tells us, "Do not be conformed to this world, but be transformed by the renewal of your mind" (Romans 12:2a). In a world of differing voices competing for our allegiance, we must learn to "think biblically" so we can distinguish good from evil. God is the Creator of this world; his voice-his Word-must guide our thoughts and our lives. With the Bible in their hands, John MacArthur and other scholars and teachers from the Master's College confront the false worldviews that dominate our postmodern world. The authors provide models for cultivating a biblical mind-set on worship, psychology, gender, science, education, history, government, economics, and literature. This book will help anyone who is striving to think biblically in today's culture.

This book provides an introduction to the mathematical and algorithmic foundations of data science, including machine learning, high-dimensional geometry, and analysis of large networks. Topics include the counterintuitive nature of data in high dimensions, important linear algebraic techniques such as singular value decomposition, the theory of random walks and Markov chains, the fundamentals of and important algorithms for machine learning, algorithms and analysis for clustering, probabilistic models for large networks, representation learning including topic modelling and non-negative matrix factorization, wavelets and compressed sensing. Important probabilistic techniques are developed including the law of large numbers, tail inequalities, analysis of random projections, generalization guarantees in machine learning, and moment methods for analysis of phase transitions in large random graphs. Additionally, important structural and complexity measures are discussed such as matrix norms and VC-dimension. This book is suitable for both undergraduate and graduate courses in the design and analysis of algorithms for data.

This publication examines key issues related to the development of the education sector in Democratic Republic of Congo, focusing on the primary and secondary levels.
