horizon, and a secret corporate cabal of ruthless men intends to make sure that humankind stays under its control. But two people on opposite sides of the world are starting to ask questions that could get them killed. Secret Service agent Anna Kelso has been suspended for investigating the shooting that claimed her partner's life. Anna suspects that the head of a bio-augmentation firm was the real target, and against orders she's turned up a few leads concerning a covert paramilitary force and a cadre of underground hackers. But the cover-up runs deep, and now there's a target on her back. Meanwhile, Ben Saxon, former SAS officer turned mercenary, joins a shadowy special ops outfit. They say they're a force for good, but Saxon quickly learns that the truth is not so clear-cut. So begins a dangerous quest to uncover a deadly secret that will take him from Moscow to London, D.C. to Geneva, and to the dark truth—if he lives that long. The year is 2027; in a world consumed by chaos and conspiracy, two people are set on a collision course with the most powerful and dangerous organization in history—and the fate of humanity hangs in the balance.

From Timothy Zahn, Hugo Award winner and New York Times bestselling author of two landmark Star Wars® series, comes an original new tale featuring a renegade space pilot, his unusual alien partner, and an unknown cargo that can change the course of galactic history. Jordan McKell has a problem with authority. Unfortunately for him, the iron-fisted authority of the powerful Patthaaunutth controls virtually every aspect of galactic shipping. In order to survive, Jordan ekes out a living dabbling in interstellar smuggling for outlaw concerns that represent the last vestiges of free trade in the galaxy. So when Jordan and his partner, Ixil--an alien with two ferret-like "outhunters" linked to his neural system--are hired by a mysterious gentleman to fly a ship and its special cargo to Earth, they jump at the job. Caution has never been one of Jordan's strong suits. But this time he may have taken on more than even he can handle. The ship, Icarus, turns out to be a ramshackle hulk, the ragtag crew literally picked up off the street, and the cargo so secret, it's sealed in a special container that takes up most of the cramped and ill-

designed ship. As if that weren't bad enough, it looks like the authorities already suspect something is afoot, there's a saboteur aboard, and the Icarus appears to be shaking apart at the seams. It doesn't seem as if things could get any worse. That is, until a beautiful crew member helps McKell uncover the true nature of the cargo he's carrying. With his enemies closing in on the lumbering Icarus, the unknown saboteur still aboard, and authorities on Earth pressured to turn them in, McKell and Ixil become fugitives. Their only chance is to stay one step ahead of their pursuers as they try to make it home. A bold and epic novel filled with unrelenting action and a good dose of humor, The Icarus Hunt is a wild hyperspace romp through the galaxy.
