Surprising Truth: The Land Rover Discovery 2 Is The Most Unique SUV Ever Made![Land Rover Td5 Engine](#)

The Land Rover Td5 engine was already in development for the Discovery when Land Rover was purchased by BMW, whereby it was also integrated into the Defender model. It replaced the 300Tdi due to tigher European emission controls, which was accomplished by controlling the engine via an Electronic Control Unit (ECU). Everything relating to the Td5 engine such as temperatures, fuel cut off, fuel injection and the accelerator pedal are controlled electronically, and various additional systems ...

### [The Td5 Engine - Land Rover Expedition](#)

The Td5 was the first diesel engine in the Defender to be wholly controlled by an engine management (or control) unit (EMU/ECU) - codenamed 'Thunder' and developed in conjunction with Lucas. The ECU regulates fuel delivery by taking into account a number of factors from the engine and the surroundings - such as inlet air pressure and

### [Td5, A Short History - Defender Td5](#)

Fuel pressure regulators are a typical Td5 issue, they leak – there'll be a smell of diesel, and wetness down the back of the engine. Crank position sensors sometimes go faulty, causing bad running, but they're cheap to replace. Look out for water leaks.

### [1998-2007 Land Rover Defender Td5 4x4 Review | Articles ...](#)

The Td5 engine was loosely based on the Rover Group's L-series diesel engine. The 300Tdi remained in production in Brazil, and was offered as an option on rest of world (non-UK/Europe) models. Following Ford's acquisition of Land Rover in 2000, the engine was used in Brazilian-built Ford pick-up trucks as well.

### [Storm Tuning – Bespoke Land Rover Tuning](#)

The Td5 engine was replaced by an engine from Ford's DuraTorq line (AKA the Puma engine), built in their factory in Dagenham, making the Td5 the last Land Rover engine to be built in-house at Solihull.

### [Land Rover Defender - Wikipedia](#)

There are plenty of good ones out there. TD5s are sensitive to overheating so make sure the cooling system is tip top. Regular oil changes every 5k miles will keep the TD5 engine running like a sewing machine. Other than that they are a good strong engine with oodles of potential in terms of tuning.
