Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. Each and every issue is packed with punishing product reviews, insightful and innovative how-to stories and the illuminating technical articles that enthusiasts crave.

Tailored for upper-level undergraduate and MBA students, Assael's Consumer Behavior applies behavioral concepts to market strategy (domestic and international) with special emphasis on web-related issues and applications. Assael presents the content from a managerial perspective, focusing on decision making as the framework for understanding consumer behavior. The text also features a unique, three-chapter Marketing Action section, covering marketing communications, marketing segmentation and micromarketing, as well as consumer rights and social responsibility.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

This paper highlights that the 1978 World Bank Annual Meeting, held in Washington, D.C. during September 25 – 28, 1978, emphasized that greater efforts need to be made by both developed and developing countries, on domestic as well as international fronts, to stimulate lagging growth and to improve the well-being of the poorest. Just as developing countries agreed that economic takeoff was based as much on their own internal policies as on the external environment, the industrialized nations acknowledged that their own economic well-being was more closely linked to the growth of the Third World.

Come on out and play You can only surf the Net so long. You can only play so much video poker. So if you're a PC addict who's ready for some new fun, this book is your toolbox. The FIAF Moving Image Cataloguing Manual is the result of many years of labor and collaboration with numerous professionals in the moving image field. It addresses the changes in information technology that we 've seen over the past two decades, and aligns with modern cataloguing and metadata standards and concepts such as FRBR (Functional Requirements for Bibliographic Records), EN 15907, and RDA (Resource Description and Access). The manual is designed to be compatible with a variety of data structures, and provides charts, decision trees, examples, and other tools to help experts and non-experts alike in performing real-world cataloguing of moving image collections.
