From author Kia Abdullah, *Take It Back* is a harrowing and twisting courtroom thriller that keeps you guessing until the last page is turned. One victim. Four accused. Who is telling the truth? Zara Kaleel, one of London's brightest legal minds, shattered the expectations placed on her by her family and forged a brilliant legal career. But her decisions came at a high cost, and now, battling her own demons, she has exchanged her high profile career for a job at a sexual assault center, helping victims who need her the most. Victims like Jodie Wolfe. When Jodie, a sixteen-year-old girl with facial deformities, accuses four boys in her class of an unthinkable crime, the community is torn apart. After all, these four teenage defendants are from hard-working immigrant families and they all have proven alibis. Even Jodie's best friend doesn't believe her. But Zara does—and she is determined to fight for Jodie—to find the truth in the face of public outcry. And as issues of sex, race and social justice collide, the most explosive criminal trial of the year builds to a shocking conclusion.

In *Save the Humans*, award-winning documentary filmmaker Rob Stewart tells his captivating life-story-so-far—from self-professed “animal nerd” to one of the world’s leading environmental activists, from a person whose sole focus was saving his beloved sharks to a mission to save us all. Rob Stewart has always been in love with creatures, the odder or more misunderstood the better. His passion for all living things, including Satan, his 7-foot-long, 80-pound pet water monitor, has led him around the world, as a university student studying zoology in Kenya, as a wildlife photographer in Madagascar and Southeast Asia, and ultimately as a documentary filmmaker in the Pacific shooting his innovative and award-winning documentary *Sharkwater*. Risking arrest and mafia reprisal in Costa Rica, nearly losing a leg to flesh-eating disease in Panama and getting lost at sea in the remote Galapagos Islands, Stewart is living proof that the best way to create change in the world is to dive in over your head. His documentary sparked shark fin bans around the world, but his story doesn’t end with saving sharks. Stewart has set his sights on a slightly bigger goal—saving the human species. He has criss-crossed the globe to meet with the visionaries, entrepreneurs, scientists and children working to solve our environmental crises, and his message is clear: the revolution to save humanity has started and the only thing missing is you!
