"Over decades, evidence of an incredible treasure, hidden in the forests of Ecuador, had been gathered by a Roman Catholic priest. The rumors of the treasure date back to the Conquistadors and tales of storehouses of Incan gold. But Professor Delaney McPhearson believes the treasure is older than the Incas. Much older. As Atlantis was coming to an end, three libraries of knowledge and artifacts were hidden across the globe. Laney believes one of those hiding spots is the extensive tunnel system underneath Ecuador. Laney knows she's getting close to the ancient collection. But her research trip quickly turns into a brutal race for survival. For another group is also looking for the collection. And they will eliminate anyone and anything in their way."--Back cover.

Family and Aging Policy examines how public initiatives to assist the elderly in the United States, Canada, Singapore, Denmark, and Sweden can impact families who provide them with long-term care. For the majority of older people, the aging experience involves their families directly and indirectly,

affecting income security, housing, and health care. This unique book addresses the issues that matter most, including how families juggle jobs and care giving, how families and formal services can share responsibilities, the effects of the Family and Medical Leave Act, consumer-directed service options, and provisions for caregiver support in each of the 50 United States and the District of Columbia.
