Funny, heart-warming and ultimately triumphant, *The Seven Imperfect Rules of Elvira Carr* by Frances Maynard is the perfect story for anyone who doesn't quite fit in - and for everyone who chooses not to. Elvira Carr is twenty-seven, neuro-atypical, and has never lived alone. But her father - who she suspects was in the secret service - is dead, and when her mother has a stroke and is taken into care, Elvira suddenly finds herself home alone. In order to cope, Elvira - who knows a lot about biscuits and floors, but not much about life - develops a list of seven rules for interacting with others. Not even her rules can help her, however, when she's faced with solving a mystery she didn't even know existed . . .

Everyone deserves a second chance. Small and dyslexic, with a short fuse, bad teeth, a prison record and something to prove, Marguerite McNaughton - Maggsie - doesn't need anybody or anything, thank you very much. She's more than capable of looking after herself. She's also about to discover that everyone needs someone, sometimes. Even her. The thing about trusting others, though, is that not everyone is trustworthy... It starts when a fellow inmate gives Maggsie reading lessons. Then she's offered a job in London as a kitchen assistant, together with supported accommodation and a colleague who seems determined to befriend Maggsie, no matter what. At first, Maggsie is convinced nothing will change. Especially her. But maybe this time can be different? Maybe Maggsie can be different - if she can just put her previous mistakes behind her and her trust in the right people. *Maggsie McNaughton's Second Chance*, by Frances Maynard, is a delightful, entertaining and heartwarming read about one woman's second shot at reading, friendship, and living happily ever after. (Well, sort of.)

"The Wall Street Journal's popular columnist Jason Gay delivers a hilarious and heartfelt guide to modern living. Four times a week, millions of men and women turn to Jason Gay's column in *The Wall Street Journal*. Why is Gay so celebrated? It starts with his amusing, fan's-eye-view of the sports world, which he loves but doesn't take too seriously. But his most celebrated features are his "Rules" columns, which provide untraditional, highly amusing but useful advice for navigating the minefields of everyday life. In this, his first book, Gay provides witty and wise advice on the Big Questions. Such as how to behave at work: "If you are excited about the company holiday party, this is likely an early-warning signal from the lighthouse to cancel, because you may fit the profile of the person who winds up kissing four co-workers, then stands on the coach at 2:00 a.m. railing against the company healthcare plan before passing out, then waking up twenty minutes later and demanding everyone take a taxi to Atlantic City for breakfast." Gay makes the case that it is not the grand accomplishments like climbing Mt. Everest (which, as he points out, is expensive and stressful) that make life sweet but conquering the small everyday challenges, like putting pants on before 2:00 p.m. on a Saturday. *Little Victories* is a life guide for people who hate life guides. Whether the subject is rules for raising the perfect child without infuriating all of your friends, rules for how to be cool (related: Why do you want to be cool?) or rules of thumb to tell the difference between real depression and just eating five cupcakes in a row, Gay's essays--whimsical, practical, and occasionally poignant--will make you laugh and then think, "You know, he's kind of right."--Provided by publisher.

This book was published in 2003. Although Richard Johnson's chivalric romance "*The Seven Champions of Christendom*" is little known today, it was widely read for over three centuries after its first appearance in print in the 1590s, influencing the work of English writers from John Bunyan to G.K. Chesterton and profoundly affecting the representation of St George, England's patron saint, in folklore and popular culture. In this volume, Jennifer Fellows offers a scholarly edition of the work.
