There are two ways of reading "The Top 500 Poems." You can either read fast skipping over unfamiliar poems to find your favorites or read each poem and spend a great deal of time discovering new poems. I found that while reading I was unfamiliar with about 99% of the poems. I thought that in a book of famous poems I'd know many more than I did.

The Top 500 Poems: 500-401 . Author Message; DWill

Poems by Chaucer, Shakespeare, Wordsworth, Dickinson, Hughes, Plath, and others are accompanied by biographical sketches and commentary

Gathers the most frequently anthologized English and American poems, including those by Keats, Shakespeare, Frost, Wordsworth, Dickinson, Shelley, Yeats, Tennyson, Emerson, and Browning

"100% of the author's profit from Eternal Innocence will be donated to the Minnesota Coalition for Battered Women (MCBW)." Love, or the loss thereof-- the progression from the innocence of love to the maturation of love. The poet strips love down to its most basic roots, eloquently examining the emotion we all crave, need, and fear. Though the poet brings love to its roots, he slowly reveals the rings of a grown tree: each line, a branch-- each word, a leaf. From sonnets, sharp-witted quotes, and a short story, this book proves why love, from birth to death, is an important part that envelops our lives. Without love, humans would not exist.

Why do smokers claim that the first cigarette of the day is the best? What is the biological basis behind some heavy drinkers' belief that the "hair-of-the-dog" method alleviates the effects of a hangover? Why does marijuana seem to affect ones problem-solving capacity? Intoxicating Minds is, in the author's words, "a grand excavation of drug myth." Neither extolling nor condemning drug use, it is a story of scientific and artistic achievement, war and greed, empires and religions, and lessons for the future. Ciaran Regan looks at each class of drugs, describing the historical evolution of their use, explaining how they work within the brain's neurophysiology, and outlining the basic pharmacology of those substances. From a consideration of the effect of stimulants, such as caffeine and nicotine, and the reasons and consequences of their sudden popularity in the seventeenth century, the book moves to a discussion of more modern stimulants, such as cocaine and ecstasy. In addition, Regan explains how we process memory, the nature of thought disorders, and therapies for treating depression and schizophrenia. Regan then considers psychedelic drugs and their perceived mystical properties and traces the history of placebos to ancient civilizations. Finally, Intoxicating Minds considers the physical consequences of our co-evolution with drugs -- how they have altered our very being -- and offers a glimpse of the brave new world of drug therapies.

The poet is the sayer, the namer, and represents beauty. He is a sovereign, and stands on the centre.—Ralph Waldo Emerson, from "The Poet" "[The poet] is a seer.... he is individual... he is complete in himself.... the others are as good as he, only he sees it and they do not. He is not one of the chorus. "—Walt Whitman, from the preface to Leaves of Grass Poetry has always given rise to interpretation, judgment, and controversy. Indeed, the history of poetry criticism is as rich and varied a journey as the history of poetry itself. But classic writings such as Emerson's essay "The Poet" and Whitman's preface to Leaves of Grass serve as more than a critical "call and response": the works are striking examples of how the finest poets themselves have written on poetics and the works of their peers and predecessors—revealing, in the process, much about the theory and passion behind their own works. Spanning thousands of years and including thirty-three of the most influential critical essays ever written, Classic Writings on Poetry is the first major anthology of criticism devoted exclusively to poetry. Beginning with a survey of the history of poetics and providing an introduction and brief biography for each reading, esteemed poet and critic William Harmon takes readers from Plato's Republic and Aristotle's Poetics to the Norse mythology of Snorri Sturluson's Skáldskaparmál. John Dryden's An Essay of Dramatic Poesy and Shelley's A Defence of Poetry are included, as is an excerpt from Elizabeth Barrett Browning's verse novel Aurora Leigh, arriving, finally, at the modernist sensibility of "Poetic Reality and Critical Unreality," by Laura (Riding) Jackson. For anyone interested in the art and artifice of poetry, Classic Writings on Poetry is a journey well worth taking.

In Roads Not Taken, Earl J. Wilcox and Jonathan N. Barron bring a new freshness and depth to the study of one of America's greatest poets. While some critics discounted Frost as a poet without technical skill, rhetorical complexity, or intellectual depth, over the past decade scholars have begun to view Robert Frost's work from many new perspectives. Critical hermeneutics, cultural studies, feminism, postmodernism, and textual editing all have had their impact on readings of the poet's life and work. This collection of essays is the first to account for the variety of these new perceptions.

The Poetry Toolkit: For Readers and Writers provides students with the essential intellectual and practical tools necessary to read, understand, and write poetry. Explains the most important elements of poetry in clear language and an easily accessible manner Offers readers both the expertise of an established scholar and the insights of a practicing poet Draws on examples from more than 1,500 years of English literature

Reference guide to poetry anthologies with descriptions and evaluations of each anthology.

What if God is hiding in plain sight? This is the question that author Keith Scott asks in his book about finding God ' s presence in our lives. Here I Am flips the response that Abraham and Moses gave to God ' s call, imagining it as God ' s response to our question. " Where are you? " The book shows that God reveals himself in human nature, history, science, classical and popular culture, and in our common customs and habits. Along the way the reader also discovers answers to some of the most vexing issues facing believers, like the problem of evil, Darwin ' s theory of evolution, and the meaning of salvation. Here I Am looks for the answers and finds them—and him—all around us.

A journey of discovery and revelation... A passion for life resonates in every heart. We experience it as a deep longing for union with some Greater Power. Deeper still is God's yearning for us. And this mutual desire, the birthright of us all, is our spirituality. Embracing the Spirit Within is an exceptional blend of personal stories, biblical passages, poetry, and meditative reflections. It expounds on the transformations that characterize life and the unwavering Love that empowers us to discover of our own inner truth, goodness, and beauty. At the heart of the book is a timeless message: The more we trust our inner light, the greater our contribution to the world.
