~~HISTORY — Villiers Engines~~

The first Villiers internal combustion engine using petrol was produced in 1912, and was a small single-cylinder, four-stroke unit with an overhead inlet valve which worked in conjunction with a two-speed gearbox.

Villiers used Roman numerals in quoting mark numbers for most of their engines up to 1945 [Note 2]. A new capacity class, the 172 cc, was brought out in 1924. This was to form the basis of two engines which were to bring world records to a number of companies. The first engine was the Sports Engine (no mark number was allocated to these engines).
